More info: biohackathon-europe.org

Contact: biohackathon-europe@elixir-europe.org

Our impact

Since 2019 ...

275 projects

2200 hackers

43 preprints

14,000 downloads

“ It was a great experiment to create something valuable in a collaborative way between academic and industry. This is definitely a model for future approaches. ”

“ We were able to complete a project in just a few days that would otherwise have taken us several months. Working intensively on a single topic made realisation much easier. ”
